DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-4, 7-10, 12-16, 18-19, 24-27 and 30-32 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Schuessler, Jr. et al. Element 21 is readable on the removal tool. The wheel W or tire T is readable on the closed system loop for charging or evacuating. The socket is readable on element 109. The latch connector is readable on elements 87 and 89. The valve body is readable on element 39 and the valve assembly is readable on elements 27 and 41. Element 25 is readable on the valve seat. In the alternative, the drive hex and the body hex is obvious in view of elements 47 and 109.

Allowable Subject Matter

Claims 5-6, 11, 17, and 20 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 21-23 and 28-29 are allowed.
